Dear Sir,

APPRECIATION

The Board of Governors, Director, Management, Staff and the entire students' body of Obama College, wish to express our heartfelt gratitude to the foundation for the immense support given to the school from Literature CDs to Computer Laboratory.

In this modern age ICT can never be written off in our daily activities and education is no exception. The advent of ICT has contributed immensely in the buildup of the total personality of an individual. In no time, anyone with no knowledge in ICT will only be a stranger in Jerusalem and with these computers; our students would be fully trained to be able to apply the knowledge in every area in their lives.

These computers have raised our computer laboratory to a standard which can be compared to any other lab in any school. In view of this, we acknowledge the contributions to our school and we appreciate everything the foundation is doing to support this school.

We pray God that his mercies will be in abundance to everyone that plays any role in the foundation. May the good Lord continually bless everyone connected to the foundation.

What you have done means a lot but, just like Oliver Twist we ask for more.

Thank you very much.

Signed:

.....

Nana Ama Amisshah III
(Queen Mother Mankessim Traditional Area and Board Member)

.....

Anthony Bainsan
(Headmaster, Obama College)

.....

Solomon Fitsi Cobbinah
(Director, Obama College)
